Administrative controls allow for editing categories by agency to personalize the data categories.

There are more than 21 editable lists to make specific type changes and field modifications to agency standard titles.

An online tutorial is available to provide users with some basic help in a graphic format.

Easy to use help files answer most user-specific questions and can be printed out for later reference.

An extensive user guide (accessed via a web browser) is included on the CD with each license purchased.

Addition training is available from Ujima.
